Annual Compliance Report Guidance

Introduction

This document aims to provide guidance on how to complete the Annual Compliance Report for 2025. Please read this document carefully.

The completion of an Annual Compliance Report by the 31st March each year is a legal requirement for all 'Compliance Reporting Buyer' businesses. The Annual Compliance Report is required to detail the Compliance Reporting Buyer's compliance with the Agricultural and Food Supply Chain (Unfair Trading) Regulations 2023 (2023 Regulations).

The Annual Compliance Report comprises two documents, one word document and one excel document. Both are required to be completed in full. Failure to complete any element of the Annual Compliance Report will result in the Report not being accepted by the Agri-Food Regulator (Regulator).

Please note certain questions may not apply to your business and can be marked as not applicable on the report. The excel document uses dropdown options where appropriate.

The Regulator may request supporting documentary evidence in relation to any of the answers supplied in the Report or in relation to any matter pertaining to its functions.

Please see the list of FAQs available on our website to assist with the completion of the Annual Compliance Report: [FAQs - Compliance Reporting Buyers](#)

The deadline for submission is 31st March 2026.

There is an obligation on buyers to maintain and provide details or copies of records to the Regulator upon request according to Regulation 8(7) of the 2023 Regulations. Details of supply agreements are required to be included in this annual compliance report according to Regulation 7(3)(f) of the 2023 Regulations. This constitutes a legal basis for the processing of data to fulfil a legal obligation of the data controller as specified in Article 6(1)(c) of the General Data Processing Regulation EU 2016/679.

Buyers may, as a matter of good practice, contact suppliers to indicate that they are required to share details of suppliers and supply agreements with the Regulator.

*Agricultural and food products are defined as meaning ‘products listed in Annex I to the Treaty on the Functioning of the EU (TFEU) as well as products not listed in that Annex, but which are processed for use as food using products listed in that Annex’. [Annex I to the Treaty on the Functioning of the European Union](#). For further information please visit the FAQs on the Regulator’s website [FAQs - UTPs](#).

** A supply agreement means a contract (whether orally or in writing) for the sale or supply of agri-food products by a supplier to a buyer. Further details below.

1. Supplier name and address – Details of all suppliers of agricultural and food products to your business in 2025 as per your records.

Suppliers include all suppliers to your business regardless of where they are established, e.g. UK, another Member State or a country outside the EU.

Suppliers that you consider to be larger than your business are required to be included.

Buyers are requested to differentiate between suppliers that you regard as having a higher turnover than your business. For these larger suppliers, we require the supplier contact details and type of product they are supplying only. No other information on that supplier needs to be included.

Intra group supply is also required to be detailed in this section if applicable.

2. Email address - optional

3. Dates of the supply agreement – This is the start and end date of the any supply agreement that was active at any point in 2025.

- a. Specific dates **must** be provided for each supply agreement.
- b. Start dates may be defined in any of the following ways, depending on your business structure: the date supply first occurred, contracts were signed, terms and conditions were agreed, or a supplier was listed with your business etc.
- c. If you do not have the exact date for the beginning of a long-term supply agreement you can define as below:

- 4. Description of products** – This can be a general product category as it pertains to a supply agreement and need not indicate each product of a product line e.g. “apples” instead of listing each variety supplied unless they are the subject of separate supply agreements. Please ensure only agricultural and food products are reported on.
- 5. Perishable** – Is the product considered perishable. Answer is Yes, No or Both (if e.g. a supplier supplies more than 1 category of product). ***‘perishable’, in relation to agricultural and food products, means products that, by their nature or at their stage of processing, are liable to become unfit for sale within 30 days after harvest, production or processing (section 59(2) of the Agricultural and Food Supply Chain Act 2023).

See also Q9 for further information.
- 9. Supplier is regarded as having a greater turnover than the Buyer** – If it is your understanding that any of your suppliers has a larger turnover than the business submitting the report, it should be noted here.
